RESILIENT • DURABLE • EASY TO USE • DRIES FAST

CAUTIONARY INFORMATION: DO NOT USE THIS PRODUCT BEFORE READING THE MATERIAL SAFETY DATA SHEET. FOR INDUSTRIAL/PROFESSIONAL USE ONLY. DO NOT TRANSFER TO UNMARKED CONTAINERS. KEEP OUT OF REACH OF CHILDREN.

PATCHING

Acrylic Latex Concrete Patch is a resilient lightweight durable patching and resurfacing material consisting of a fine powder and an acrylic latex liquid binder. It is the ideal material to repair concrete sidewalks, patios, steps and other sound masonry surface. No chipping required, and may be trowel applied over a dampened surface at an average thickness of 1/8". Feather edges perfectly.

Mix the liquid and powder as supplied together and spread over surface. Smooth and feather edge as required.

WATERPROOFING

Seals and beautifies walls of concrete, masonry and asbestos shingles. The liquid binder included in this kit represents a significant advance in resin emulsion technology. It combines the remarkable weather resistant qualities of cementitious coatings with the outstanding adhesion of the most durable resins.

When used for moisture proofing, dilute liquid binder with an equal amount of water. Use a stiff brush and apply onto dampened surface. A second coat may be reapplied in 1 hour.
